

**PRESERVE MORE  
ALPHA WITH  
BETTER TRADE  
MEASUREMENT**

**FUTURES POST-TRADE ANALYTICS  
TRADE-ZOOM**

**ANALYZE THE FULL-TRADE LIFECYCLE WITH ABEL NOSER'S FUTURES TCA TOOL.** From optimal strategy selection and monitoring to post-trade historical analysis, our industry-leading TCA tools can help you decide how aggressively to hit the market at any given point while offering actionable insight into your trading costs.

*Dynamic, easy-to-read trade data within our TCA platform interface.*

By utilizing various measures built into our easy-to-use interface, you can review algo participation during market variances, compare trading across different markets and venues, quantify execution quality and measure performance. In short, we offer the tools you need to compete in today's electronic trading environment.

**Our Futures TCA platform gives you the ability to:**

- Quantify the implementation costs of futures hedging strategies
- Utilize broker performance metrics and execution-quality exception checks
- Assess efficacy and costs of your algorithm strategies
- Minimize reversion and implementation shortfall

- Compare your absolute trading costs to relative peer universe costs
- Track market liquidity to assess trade impact
- Identify alpha opportunities in your timing work flow

**Features**

- Hundreds of built-in measures with detailed analysis for each step of the trading process
- Detailed transactions in graphical form allow you to view the entire trade to clearly see volumes, interval VWAPS, TWAPS, various strike prices, etc.
- Assessments are un-conflicted compared to reports produced by interested counterparties
- Tiered access levels are available for users within your own organization.

**Largest Possible Universe**

Our TCA platform captures the largest global peer benchmark universe with trillions in equities, futures, fixed income, and foreign exchange. Benchmark data is included at no additional cost.

**Confidential and Secure**
